

INJECTION MOLDED PRISMATIC LENS

PRIM

ALC Type 48 & 43 Male Prism

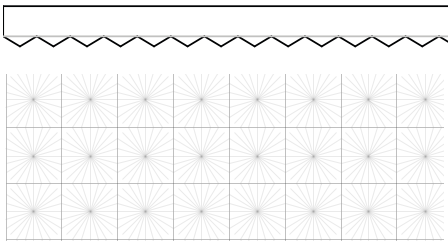

INJECTION MOLDED

- .175" Square Base - 4,5mm MALE PRISM
- .125" Square Base - 3,2mm MALE PRISM

Our injection molded prismatic sheets combine exceptional brightness control and superior light output. Only the injection molding process can produce these high-definition lenses providing absolute optical precision and assuring truly uniform refracting angles. Available with a .175" male conical prism or the mini.125" male conical prism. Thickness options are available.
